MAX, the AI Astrologer That Shows Its Math, Now Gives Everyone Free Daily Transits and Tarot

Built by The Tarot Ship's Jimmy M., MAX calculates the real sky against each person's birth chart instead of guessing

NEW YORK, Nov. 18, 2026 — Artificial intelligence spent 2026 discovering astrology. Midjourney bought Co–Star in July, and Soulloop acquired Astrolumi.AI a week later. **MAX: Your Virtual Oracle Gateway™** (maxoracle.ai) takes a different route: every answer is calculated from a Swiss Ephemeris engine, the same astronomical standard professional astrologers use, and checked against the user's own birth chart before MAX says a word.

MAX now offers two features **free to anyone with a free account:**

- **Daily Transits:** what the sky is doing right now, and exactly where each planet lands in the reader's own chart, down to the degree.
- **Daily Tarot:** a card of the day from the classic 1909 Pamela Colman Smith deck, with interpretations, a private journal and three-card spreads in six themes. Any card or transit opens straight into a conversation with MAX.

Paid members also get forecasting up to two years ahead, generated in under six seconds, and **MAX365**, a personal 365-day transit calendar that syncs to Google Calendar or iCal. A voice mode begins rolling out in December.

> *"Most astrology apps hand you a horoscope written for millions of people," said Jimmy M. "MAX does the math for one person, you, and it shows its work. I built it because I wanted something I'd trust with my own decisions."*

Jimmy M. is the astrologer and tarot reader behind **The Tarot Ship**, a YouTube channel with **292,000 subscribers**, and founder of **Great Awakener**, a live-streaming membership platform for astrology, tarot and consciousness education. MAX is built on his method, the same method behind **more than 75 public predictions that came true**, each logged with its date at greatawakener.com/predictions.

For the holidays, MAX365 makes an unusually personal gift: someone's entire 2027, dated day by day. Holiday pricing runs Nov. 25–30.
